EECS 293
Software Craftsmanship
2013 Fall Semester

Programming Assignment 12

Due at your recitation on December 2-6, 2013

Reading

Read Chapter 32 in the textbook.

Programming

Make any changes to the filter project as required after the code review.

Comment the project, and extract comments in an external HTML reference manual with JavaDoc.

Discussion Guidelines

The class discussion will focus on self-documenting code and software construction craftsmanship.
